

Group Detective

Weekly Module — one class period per day, five days.

THE WEEK'S ARC

Five cases, five categories. Each day the investigation digs somewhere different — what you've done, what you love, what you fear, where you come from — and Friday the detectives write their own case.

THE WEEK AT A GLANCE

MONDAY	Shared experiences — TODAY'S CASE: find one thing you have ALL done.
TUESDAY	Shared preferences — TODAY'S CASE: find one opinion you ALL hold.
WEDNESDAY	Fears & dreams — TODAY'S CASE: find one fear or one dream you ALL share.
THURSDAY	Family patterns — TODAY'S CASE: find one thing all your homes have in common.
FRIDAY	The open case — TODAY'S CASE: yours. Write your own five questions, interrogate, solve.

ONE TIP

Keep the groups identical all week. The point is watching the same people keep discovering each other.

This module is enrichment — a supplement to your own plans, not a curriculum. Print one sheet per group per day, and photocopy freely for your own classroom.
