

Build Without Words

Weekly Module — one class period per day, five days.

THE WEEK'S ARC

Five silent scenes, one new constraint per day. The rule 'no talking' never changes — everything else slowly gets stranger, and Friday the whole week gets taped into one class mural.

THE WEEK AT A GLANCE

MONDAY	Free scene — Today's constraint: none. Draw anything, together, silently.
TUESDAY	Shapes only — Today's constraint: shapes only — no letters, no numbers, no symbols you could read.
WEDNESDAY	One color — Today's constraint: the group picks ONE pencil or marker color before starting. Everyone shares it. (In a black-and-white world, one shade of gray counts.)
THURSDAY	Eyes closed first — Today's constraint: every artist draws their FIRST mark of each turn with eyes closed. Open, look at what happened, and build from there.
FRIDAY	The mural tile — Today's sheet is one tile of a class mural. Draw to every edge — the marks on the borders show where your world must connect to your neighbors' worlds.

ONE TIP

Save every sheet all week. Friday needs them.

This module is enrichment — a supplement to your own plans, not a curriculum. Print one sheet per group per day, and photocopy freely for your own classroom.

Build Without Words

One scene. Many hands. Zero talking.

GROUPS OF 3-6 · ~10 MINUTES · PENCILS OR MARKERS · NO PREP — WORKS AS A CALM-DOWN OR TRANSITION

1. No talking, no pointing, no mouthing words. Silence is the whole game.
2. Take turns: about 30 seconds each, then slide the sheet to your left.
3. Add to the scene. Never cross out or draw over what someone made.
4. Three rounds each, then stop, sit back, and admire what nobody planned.

TODAY: Today's constraint: none. Draw anything, together, silently.

Assembling the Mural

No scissors, no glue sticks: the mural is a taped-edge grid.

1. Collect every group's Friday tile (and any earlier sheet the class wants to include).
2. Lay them face-down in a grid on the floor, edges touching.
3. Tape along every seam on the back — painter's tape peels off walls cleanly later.
4. Flip the whole grid over. The edge marks on each tile should meet their neighbors.
5. Hang it. Title it as a class — that vote can be out loud.

dashed = tape on the back
