The Autumn Book

Leaf rubbings, harvest counting, and a scarecrow to build

A CREATIVITY BOOK

made for slow afternoons.

HOW TO USE THIS BOOK

One Cozy Season

One cozy season, one book. Some pages want a crayon on its side for rubbing textures. Some want counting. Some just want your imagination and a pencil.

Grownups: this book is built for ages 5-8, so the activities are short on purpose — little hands finish a page and move to the next.

Save the last few pages for game night. Everyone plays.
